ABOUT ME

I am Muhammad Dayyan, a passionate Web Developer and Instructor based in Karachi, Pakistan. With hands-on experience in WordPress development and strong fundamentals in HTML, CSS, JavaScript, and PHP, I focus on building responsive and performance-optimized websites. Currently, I am expanding my expertise in Laravel and Artificial Intelligence (ACCP AI – Aptech). Alongside development, I teach web technologies to students, simplifying complex concepts and guiding them through practical projects. I

WORK EXPERIENCE

Web Development Instructor 2025 – 2026
Education Inn

As a passionate Web Developer and Instructor, I focus on simplifying complex concepts for students while strengthening my own expertise in both frontend and backend development. I teach and guide learners through practical projects, coding fundamentals, and modern development practices.

Wordpress Developer 2023 – 2024
Sana Distributors Pvt Ltd.

Worked as a WordPress Developer at Sana Distributors Pvt. Ltd., where I customized themes, developed responsive layouts, and optimized site performance. Gained hands-on experience with HTML, CSS, JS, and WordPress, contributing to a better online user experience and site engagement.

Wordpress Developer 2024- 2024
QFNetwork

Worked as a Junior WordPress Developer at QF Network, creating responsive WordPress websites using Elementor and WooCommerce. Customized themes, managed plugins, fixed website issues, updated content, improved performance, and worked with the team to deliver simple websites for clients.
